11	0:41-0:45	SOFIA	And on Sunday, we're going to swim. There's a pool near my house.

PRONUNCIATION MODEL LINES

A02–A04 are cut sample-exact from A01 (not re-recorded), so the model lines are Leo's own words. Phase 1 listed "I'm taking a jacket" as a model line; the script only has "I'm taking trousers and a jacket", so the verbatim line "I'm taking a swimsuit" is used instead. "I need a jacket" remains the backchaining example on slide 14.

ANSWER KEYS

Listen 1: Madrid · four days · sunny in the day, cold at night · walk and swim.

Listen 2: taking — trousers, jacket, shoes, swimsuit, sunscreen, sunglasses · not taking — shorts, umbrella.

PRODUCTION AND VERIFICATION

Voices are synthetic (neural text-to-speech, Kokoro model: voices "am_michael" for Leo and "bf_emma" for Sofia), generated sentence by sentence and assembled with fixed pauses. Master: 24 kHz mono WAV (Source Files/Audio); delivery: 128 kbps MP3.

Verification: the finished file was transcribed by an independent speech recogniser (Whisper base.en). Every word matched the script; the only differences were punctuation, capital letters and the spelling "Sophia".

Recommended before commercial release: re-record with two voice actors using this script and timing sheet.
