

Lesson 01

Packing for a Trip

A1 · 90 minutes · Speaking-first · Signature experience: **Decision-making** · Final production: **My Travel Bag**

Version 1.0 — for review (not marked FINAL until approved). Built from the approved Phase 1 architecture.

Course	Today Travel English · 20 lessons × 90 min · A1 → A1+ → A2
Lesson	01 of 20 — Packing for a Trip
Theme / subtheme	Travel preparation / deciding what to pack
CEFR	A1
Time	90 minutes
Skill focus	Speaking (functional), supported by listening and pronunciation
Lesson type	Task-based lesson built on a “Decision Ladder”: six decisions, each harder than the last
Can-do (Matrix)	I can talk about what I need to take on a trip and make a simple packing list.
Overall communicative aim	Learners decide what goes in a bag for a specific trip, say what they are taking and not taking, give a simple reason, check a partner’s bag and update their own list.
Learners	Adults; 1-to-1 or groups; in person or online
Materials	Student Deck (28 slides) · Audio A01–A04 · Classroom Materials PDF (print pages 1–6) · Travel Toolkit PDF

1. Aims and outcome

– MAIN AIM

By the end of the lesson, learners can talk about what they need to take on a trip and make a simple packing list — shown by the final task **My Travel Bag** (plan → check → decide → update).

– SECONDARY AIMS

- **Listening:** understand a short conversation for gist (destination, days, weather, activities) and for specific information (packing decisions).
- **Pronunciation:** rhythm and stress in **I need...** / **I’m taking...** / **I’m NOT taking...**; keeping the /m/ in I’m.
- **Vocabulary:** 14 packing items and 4 weather words for immediate spoken use.
- **Interaction:** asking about and suggesting changes to a partner’s choices (checker language).

– LESSON OUTCOME

Every learner leaves with a personal packing list that has been checked by two partners and updated at least once (or with a reasoned “no, thanks”), plus the Travel Toolkit as a take-home reference.

– ASSUMPTIONS

- This is lesson 1: there is no previous course language to recycle. Learners know numbers 1–10, “I’m...”, “It’s...” and a/an at a basic level.

- Many learners know some clothes and weather words; stage 2 activates these before teaching the gaps.
- Learners have travelled, or plan to travel, so personalisation in stages 1 and 10 is real. A “dream trip” or a trip card covers anyone without a trip.
- Learners do not need knowledge of any destination’s climate: all weather information is on the cards (“this week”).

2. Target language

Taught as chunks. No grammar metalanguage is needed on slides or in class. Matrix “grammar in context”: need + noun; be going to as chunks.

- A • CORE CHUNKS (PRODUCTION)

Chunk	Function	Where it appears	How it is practised
I’m going to [Madrid] for [four] days.	Set the context of the trip	Slides 3, 9, 13, 16, 22-23	Lead-in questions; opening line in stages 7, 8 and 10
I need [a jacket / sunscreen].	Say what is necessary	Audio; slides 13-14	Pronunciation; weather role-play; reasons
I’m taking [a sweater].	Announce a decision	Audio; slides 10-24	Everywhere from stage 5 on
I’m not taking [shorts].	Reject an item	Audio; slides 10-24	Contrastive stress drill; twist; final
It’s [cold] (at night / this week).	Give a reason	Slides 6, 11, 16, 21-24	Every justification

- B • SUPPORT LANGUAGE (SCAFFOLDED)

Chunk	Function	Where
Do I need [an umbrella]? — Yes, you do. / No, you don’t.	Ask for advice	Audio; slides 16, 23
Are you taking...? / Do you need...? — Yes, I am. / No, I’m not. / Yes, I do. / No, I don’t.	Check a decision	Slides 17, 23
You need... It’s... / You don’t need... / Take a..., not a...	Suggest a change (checker)	Slide 23
OK, good idea! / No, thanks. I have a... / Hmm, I’m not sure.	Accept / decline / hesitate	Slides 17, 24
Where are you going? / How many days? / What’s the weather like?	Ask about a trip	Slides 3, 16
My bag is full.	Refer to the limit	Slide 17
I’m going to [walk / swim].	Planned activities (be going to as a chunk)	Audio (“we’re going to walk a lot”), trip cards

- C • OPTIONAL EXTENSION (STRONG LEARNERS ONLY, NOT ASSESSED)

- because: “I’m taking a jacket because it’s cold at night.”
- We’re taking... / We’re not taking... (in stage 8, if a pair shifts to “we” naturally).

3. Vocabulary

– ACTIVE PRODUCTION – 18 ITEMS

Category	Items (with the chunk students say)
Essentials	a passport · a phone charger
Clothes	a T-shirt · shorts · trousers (US: pants) · a sweater · a jacket · shoes · a swimsuit
Weather items	an umbrella · a raincoat · sunglasses · sunscreen · a hat
Weather	sunny · rainy · hot · cold (It's sunny.)

Every active item has a picture on slides 4–6, 19 and on the item cards (print p.1). Slide numbering 01–14 is the same on slides 4, 5 and 6.

– RECOGNITION ONLY – DO NOT DRILL

wallet, adapter, toothbrush, medicine, scarf, gloves, sandals (“EXTRA” cards, muted on slide 19) · suitcase, backpack, carry-on · windy, snowy (trip-card icons) · religious site, dress rules (twist card 3, Travel Note).

4. Pronunciation

Line (from the audio)	Stress / rhythm	Watch for
I need sunscreen. (A02)	da DUM DUM-da	need_sunscreen; SUN-screen stress
I'm taking a swimsuit. (A03)	da DUM-da da DUM-da	keep the /m/ in I'm; weak “a”
I'm not taking shorts. (A04)	da DUM da-da DUM	NOT is strong — it carries the decision
Build it: a jacket → need a jacket → I need a jacket.	backchaining	need a → “needa”

Teacher model → student noticing → controlled practice → communicative transfer (slide 15). Six minutes in total. No phonemic script is needed.

5. Materials and preparation

Material	File / location	Preparation
Student Deck (28 slides)	PPTX/TTE_L01_Packing-for-a-Trip_Student-Deck_v1.0.pptx	Install the fonts (Source Files/Fonts). Test the audio on slides 9, 10 and 14.
Audio	Audio/A01 Leo's Call (0:58), A02-A04 Say it clips	Embedded in the deck; loose MP3s are a backup.
Print 1 · Item cards	Teacher Lesson Plan/TTE_L01_Classroom-Materials_Print_v1.0.pdf, p.1	1 set per pair, cut up (stages 3 and 8)
Print 2 · Bag template	same PDF, p.2 (A4 landscape)	1 per pair
Print 3 · Trip cards A-D	same PDF, p.3	1 card per pair
Print 4 · New information cards	same PDF, p.4	1 set, cut up
Print 5 · Weather cards	same PDF, p.5	1 set per pair, cut up (stage 7)
Print 6 · My Travel Bag card	same PDF, p.6 (2 per page)	1 per student

Material	File / location	Preparation
Travel Toolkit	Toolkit/TTE_L01_Travel-Toolkit_v1.0.pdf	1 per student (print or send after class)
Assessment grid	Appendix A of this plan	1 for the teacher

6. Staging overview

#	Stage	Time	Slides	Aim	Interaction
1	Which bag?	0-5 (5 min)	1-3	Personalise; first decision	T-S, S-S
2	What's on the bed?	5-14 (9 min)	4-6	Activate and clarify 14 items and 4 weather words	S-S, T-S
3	Always or it depends?	14-19 (5 min)	7	First sorting decision	S-S
4	Leo's Call (listening)	19-31 (12 min)	8-11	Gist and detail; hear a decision being changed	S, S-S
5	Decision language	31-37 (6 min)	12-13	Draw out the chunks from the audio	T-S, S-S
6	Say it (pronunciation)	37-43 (6 min)	14-15	Rhythm and stress	T-S, S-S
7	Change the weather	43-50 (7 min)	16	Change decisions after new information	S-S
8	One bag, ten things (signature task)	50-66 (16 min)	17-20	Decide under a limit, justify, agree, re-decide	Individual, pairs, pair-to-pair
9	Travel Note: it depends	66-70 (4 min)	21	Widen "it depends" before the final	S-S
10	My Travel Bag (final production)	70-86 (16 min)	22-24	Show the Can-do: plan → check → decide → update	Individual, rotating pairs
11	Feedback, Can-do check, Toolkit	86-90 (4 min)	25-28	Close the loop	T-S

Total: 5 + 9 + 5 + 12 + 6 + 6 + 7 + 16 + 4 + 16 + 4 = **90 minutes**. Estimated student talking time: about 58 minutes (about 64%).

7. Detailed procedure

Stage 1 • Which bag?

0-5 • 5 min • slides 1-3 • T-S → S-S

Aim: personalise; make the first decision; show the goal.

- Slide 1-2 (1 min): show the Can-do and the four final-task steps. Say only: "At the end: My Travel Bag. Plan, check, decide, update."
- Slide 3: model once — "I'm going to Lisbon. Three days. Small bag!"
- Students ask two partners the three questions on the slide (3 min). Then quick class check (1 min): "Who has a big bag? Why?"

– ICQS

- How many partners? (two)

- What do you ask? (Where / How many days / Which bag)

– **NOTE**

- suitcase / backpack are recognition words — don't drill them.

Stage 2 • What's on the bed?

5-14 • 9 min • slides 4-6 • S-S → T-S

Aim: activate what learners know, then clarify the 14 items and 4 weather words.

1. Slide 4 (1 min): pairs name as many things as they can in 60 seconds (point and say, or use the numbers).
2. Slides 5-6 (4 min): elicit item by item before showing the word. Drill only the problem words: clothes, sweater, trousers, swimsuit, sunscreen. Say the chunk with its article (a jacket, sunglasses) — no explanation.
3. Slide 6 (2 min): weather icons → "It's sunny." / "It's cold at night."
4. Pairs test each other (2 min): A points, B names.

– **ICQS**

- Write or speak? (speak)
- How long? (60 seconds)

– **CCQS**

- Point to shorts / trousers: Long or short? (short / long)
- Sunglasses — for rain or for sun? (sun)

Stage 3 • Always or it depends?

14-19 • 5 min • slides 7 • S-S

Aim: make the first sorting decision: essentials versus things that depend on the trip.

1. Give each pair the item cards (print p.1) or share slide 7 in edit mode online. Pairs sort the 14 items into ALWAYS and IT DEPENDS (3 min).
2. Class check (2 min): "It depends... on what?" → the weather, the trip. Accept different answers; there is no single key.

– **ICQ**

- How many groups? (two)

– **EXPECTED**

- ALWAYS: usually a passport and a phone charger (shoes for some learners). IT DEPENDS: the rest. Reward reasons, not "correct" sorting.

Stage 4 • Leo's Call (listening)

19-31 • 12 min • slides 8-11 • S → S-S

Aim: listen for gist and for detail; hear a packing decision change after new information.

1. Pre-listening, slide 8 (3 min): "Leo is going to Madrid. This is his bag — his first idea. Good bag?" Pairs predict; 2-3 learners share. Don't confirm.
2. First listening, slide 9 (3 min): read the 4 questions first. Play A01 once. Pairs check.
3. Second listening, slide 10 (4 min): play A01 again. Learners tick taking / not taking for 8 items. Pairs compare.
4. Check, slide 11 (2 min): show answers. Ask "What changed? Why?" before pointing to the bottom line.

– **ICQS**

- How many activities do you tick? (two)
- One box or two boxes for each thing? (one)

– ANSWERS

- L1: Madrid · four days · sunny in the day, cold at night · walk and swim.
- L2: taking — trousers, jacket, shoes, swimsuit, sunscreen, sunglasses; not taking — shorts, umbrella.

Stage 5 • Decision language

31–37 • 6 min • slides 12–13 • T-S → S-S

Aim: notice the target chunks in Leo's own words and check their meaning.

1. Slide 12 (2 min): learners complete Leo's four lines alone, then check in pairs. Optional: go back to slide 10 and replay A01.
2. Slide 13 (2 min): check meaning with CCQs (below). "I'm going to Madrid" stays a fixed chunk; no metalinguage.
3. Pairs (2 min): A points to a picture (slides 5–6 or a card), B decides: "I'm taking..." / "I'm not taking..."

– ANSWERS

- 1 going · 2 not · 3 taking · 4 need

– CCQS

- I'm taking a jacket → Is the jacket in the bag? (yes)
- I'm not taking shorts → Are the shorts in the bag? (no) Did Leo decide? (yes)
- I need good shoes → Are good shoes important for Leo? (yes) Why? (he's going to walk a lot)
- I'm going to Madrid → Is Leo in Madrid now? (no) Is it his plan? (yes)

Stage 6 • Say it (pronunciation)

37–43 • 6 min • slides 14–15 • T-S → S-S

Aim: say the chunks with clear rhythm, stress and the /m/ in I'm.

1. Slide 14 — model (1 min): play A02, A03 and A04 twice each.
2. Noticing (1 min): "Which parts are strong?" — the orange syllables. Clap or tap the rhythm once.
3. Controlled practice (2 min): backchain "a jacket → need a jacket → I need a jacket", chorally then individually. Contrast "I'm taking" with "I taking".
4. Transfer, slide 15 (2 min): A points to a tile, B decides fast and says it with the right stress ("I'm NOT taking an umbrella"). Swap after 6 turns.

– MONITOR

- a strong NOT; the /m/ in I'm; "need a" linked

Stage 7 • Change the weather

43–50 • 7 min • slides 16 • S-S

Aim: guided practice: change a decision when new information arrives, like Leo.

1. Set up with a demo pair (1 min). A (traveller) chooses 3 things. B (friend) takes a weather card (print p.5) and does not show it.
2. Round 1 (3 min): pairs use the dialogue frame. A must change at least 2 things.
3. Swap roles (3 min) with a new weather card.

– ICQS

- B, do you show your card? (no)
- A, how many changes? (two)

– MONITOR

- Note 2 good examples and 3 errors on the feedback grid for stage 11.

Stage 8 • One bag, ten things (signature task)

50-66 • 16 min • slides 17-20 • individual → pairs → pair-to-pair

Aim: make and justify decisions under a limit, agree as a pair, then decide again after new information.

1. Brief, slide 17: "You're travelling together. One small bag. Ten things — the passport and charger count!" Give each pair a trip card (print p.3 / slide 18), item cards and the bag template (print p.2), or use slide 19 online.
2. 01 Think alone (2 min): each learner silently chooses 10 things.
3. 02 Compare and agree (5 min): partners tell each other their bags and agree on ONE bag. "I'm going to Bangkok. It's rainy. I'm taking a raincoat." — "Are you taking a hat?"
4. 03 New information (3 min): deal one card per pair (slide 20 / print p.4). The pair takes 1 thing out and puts 1 thing in (card 4: takes 2 out).
5. 04 Bag reveal (4 min): each pair tells another pair about its final bag and its change in 3-4 sentences. The listening pair asks one question.
6. Content feedback (2 min): "Which pair is ready for rain? Who changed their bag? Why?" Then one language point to reuse in the final task.

– ICQS

- How many bags? (one)
- How many things? (ten)
- Is the passport in the ten? (yes)

– CARD 3 (RELIGIOUS SITE)

- Present it as a possible local rule: "Check the local dress rules." Rules are different in different places. Don't link it to any one country or religion.

– SUCCESS

- A 10-item bag that fits the trip; every "it depends" item has a spoken reason; the bag is adjusted after the twist.

Stage 9 • Travel Note: it depends

66-70 • 4 min • slides 21 • S-S

Aim: widen "it depends" (weather, places, plugs) before the personal final task.

1. Learners read the three notes (1 min). Help by pointing: forecast, dress rules, plugs.
2. Pairs answer (3 min): "A visitor to your country: what do they need?" — "In Brazil, you need sunscreen."

– NOTE

- Keep the message "check before you go". Avoid generalisations; invite comparison with the learners' own countries.

Stage 10 • My Travel Bag (final production)

70-86 • 16 min • slides 22-24 • individual → rotating pairs

Aim: show the Can-do independently: PLAN → CHECK → DECIDE → UPDATE.

1. PLAN, slide 22 (3 min): each learner chooses a real trip, a dream trip or a trip card and completes the My Travel Bag card (print p.6).
2. CHECK, round 1, slide 23 (5 min, about 2.5 min each way): the traveller talks about their bag; the checker asks at least 1 question and makes 1 suggestion with a reason. Then swap roles.
3. DECIDE and UPDATE, slide 24 (1 min): the traveller accepts or declines (with a reason) and writes the change under CHANGES.
4. CHECK, round 2 (5 min): new partner, same steps.
5. DECIDE and UPDATE (1 min).

6. ONE CHANGE (1 min): 2–3 learners tell the class one change and why.

– ICQS

- Checker — how many questions? (1 or more)
- How many suggestions? (1)
- Traveller — must you say yes? (no)

– MINIMUM LANGUAGE

- Traveller: I'm going to X for N days. It's [weather]. I'm taking... (5 or more). I'm not taking... (1 or more). A reply to each suggestion.
- Checker: 1 question and 1 suggestion with a reason.

– TEACHER

- Monitor silently with the assessment grid (Appendix A). Don't interrupt. If it turns into a monologue, prompt: "Checker — your question?"

Stage 11 • Feedback, Can-do check, Toolkit

86–90 • 4 min • slides 25–28 • T-S

Aim: close the loop with delayed feedback and self-assessment.

1. Slide 25 (3 min): content first ("Who changed their bag? Why?"). Write 2 good examples under GREAT LANGUAGE and 3 errors under LET'S FIX; pairs self-correct.
2. Slide 26 (under 1 min): learners tick the Can-do statements.
3. Slides 27–28: point to the Travel Toolkit as the take-home reference (PDF).

8. Anticipated problems and solutions

Problem	Solution
"I taking a jacket" (drops the 'm)	Slide 14 "Say the M"; finger-count the words; reformulate in feedback.
"I need umbrella" / "a sunglasses"	Labels always show the chunk (an umbrella, sunglasses). Reformulate; no grammar explanation.
"I take a jacket" (present simple)	Reformulate to "I'm taking..."; the frame is on slide 13.
"I'm going in / at Madrid"	Treat "I'm going to + place" as a fixed chunk; drill it once.
"I need to take a jacket"	Correct English — accept it; it isn't the target.
Pronunciation: clothes, sweater, sunscreen	Drill in stage 2 only if needed; stress SUN-screen.
Learners give no reasons	Ask "It depends... on what?"; in the final, the checker's suggestion must have a reason.
Stage 8: pairs agree too quickly	The 10-item limit forces choices; ask "Why?" about one item per pair.
Final task turns into a presentation	The checker has a job card (slide 23). Stop it after 2.5 minutes: "Checker — your question?"
Card 3 leads to generalisations about a country or religion	Reframe: "Rules are different in different places. Check before you go."
L1 during negotiation	Point to the SAY strip (slide 17). Allow a brief L1 moment, then: "Say it in English."
Online: the audio isn't heard	Share computer sound; or send the MP3; the transcript is in section 10.

Problem	Solution
Learners don't know a destination's climate	No general knowledge is needed: the forecast is on the card.

9. Answer keys

Slide	Task	Answer
7	Always / it depends	Open. Usually ALWAYS: a passport, a phone charger.
9	Listening 1	Madrid · four days · day: sunny / night: cold · walk, swim
10-11	Listening 2	Taking: trousers, jacket, shoes, swimsuit, sunscreen, sunglasses. Not taking: shorts, umbrella.
12	Complete Leo's lines	1 going · 2 not · 3 taking · 4 need
15	Decide fast (model)	1 I'm taking a raincoat. 2 I'm not taking an umbrella. 3 I'm not taking shorts. 4 I'm not taking a sweater. 5 I'm taking sunglasses. 6 I'm taking a jacket. (Other decisions with a reason are fine.)

10. Listening transcript — A01 Leo's Call (0:58)

LEO — the traveller (male voice). SOFIA — his friend who lives in Madrid (female voice). The words match the audio exactly.

#	Speaker	Line
1	SOFIA	Hi, Leo! Are you ready for Madrid?
2	LEO	Hi, Sofia! I'm packing now. I'm going to Madrid for four days.
3	SOFIA	Great! What are you taking?
4	LEO	T-shirts, shorts and sunglasses. It's hot, right?
5	SOFIA	It's sunny in the day. But this week it's cold at night.
6	LEO	Really? OK. I'm not taking shorts. I'm taking trousers and a jacket.
7	SOFIA	Good idea. And we're going to walk a lot.
8	LEO	OK, I need good shoes. Do I need an umbrella?
9	SOFIA	No, you don't. It's not rainy this week.
10	LEO	Great. I'm not taking an umbrella.
11	SOFIA	And on Sunday, we're going to swim. There's a pool near my house.
12	LEO	A pool! OK, I'm taking a swimsuit.
13	SOFIA	And sunscreen!
14	LEO	Yes, I need sunscreen. And my passport! See you on Friday!

11. Feedback plan

CELTA-style delayed feedback. Don't interrupt fluency in stages 7, 8 and 10.

1. **Content first:** "Which pair is ready for rain?" / "Who changed their bag? Why?"
2. **Successful language:** write 2 good examples you heard.
3. **Errors:** write 3 errors, anonymously, as they were said; pairs correct them.
4. **Reformulate:** say the correct chunk; learners repeat once.
5. Short content feedback also happens at the end of stage 8 (2 min).

– ERROR COLLECTION GRID (COPY TO THE BOARD / SLIDE 25)

Great language (heard)	Let's fix (said)	Correct form

12. Differentiation

– STRONGER LEARNERS

- Add a reason with because.
- Checker: make two suggestions.
- Stage 8: use We're taking... when agreeing.
- Final: 7-8 items and 2 "not taking" items.

– LEARNERS NEEDING SUPPORT

- Keep the frames on screen (slides 16, 22-24).
- A 6-item bag in stage 8 (plus the essentials).
- Allow pointing at a card plus the chunk ("I'm taking... [card]").
- Pair them with a patient partner for the first check round.

13. 1-to-1 adaptation

The teacher is a genuine co-traveller, not a drill partner.

Stage	1-to-1 version
1	Teacher and student both answer the questions: a real exchange about two trips.
2-3	The student races the clock; the teacher challenges one sorting choice ("Passport — always? A trip in your country?").
4-6	Unchanged; the student does the pair checks with the teacher.
7	The teacher plays B first, then A — as A, the teacher packs a bad first bag for the student to fix.
8	The teacher is a co-traveller with a secret 10-item bag containing 2 strange choices (e.g. a swimsuit for Sapporo). The student must question them; then they agree on one bag. The student deals the twist card to the teacher.
9	The student describes their own country for a visitor; the teacher compares.

Stage	1-to-1 version
10	Round 1: the teacher checks in role as a friend who lives at the destination and gives one real local fact. Round 2: roles swap — the student checks the teacher's prepared list (2 problems in it). Optional homework: a 45-second voice message describing the final bag.

14. Group adaptation

- **Pairs** by default; change pairs between stages 7, 8 and 10 so learners hear new voices.
- **Odd numbers:** a triad. In stage 8, the third person must approve every change; in stage 10 there are two checkers, who must make different suggestions.
- **Large groups (12+):** in stage 8, two pairs share a trip card, so the reveal compares decisions. In stage 10, use inner and outer circles; the outer circle moves one place for round 2.
- **Maximise peer talk:** checker roles, bag reveals to another pair, and the “one change” round in front of the class.

15. Online adaptation

- Share the deck on screen with computer sound on (audio slides 9, 10 and 14).
- Stages 3 and 8: use breakout rooms. Pairs work on a shared copy of slide 7 / slide 19 (edit mode) and drag the pictures, or type their items in the chat — no special technology needed.
- Stage 7: B privately picks a card number; the teacher sends the weather card text in a private chat.
- Stage 8: send the twist card text to each breakout room with the broadcast feature, or visit each room.
- Stage 10: learners type their list in the chat or a shared document; check rounds happen in breakout rooms (2 rounds, reshuffle rooms in between).
- 1-to-1 online: as in section 13; the voice-message task works well in any messaging app.

16. Optional extension and reduction

- **EXTENSION (IF TIME ALLOWS, OR HOMEWORK)**
 - **Worst bag:** show a silly bag for a trip (e.g. Sapporo: swimsuit, sunglasses, shorts). Pairs fix it with You need... / You don't need... (5 min).
 - **Second twist:** give each pair another new information card.
 - **Voice message:** learners record their final bag as a 45-second message to a friend at the destination.
- **REDUCTION (IF SHORT OF TIME)**
 - Skip slide 15; do the transfer orally with 3 prompts.
 - Shorten stage 2 to 6 minutes (1-minute race and problem words only).
 - Set the Travel Note as reading homework.
 - Final: one check round instead of two. Keep CHECK → DECIDE → UPDATE — never cut the checker's role.

Appendix A • My Travel Bag assessment grid

Tick during stage 10. A learner shows the Can-do when all traveller boxes are ticked.

Learner	Where + how long	Weather	5+ taking / 1+ not	Answers question	Decides + updates	Checker: question	Checker: suggestion + reason
